What I did

- **YPassword** iPhone application
- Gridpocket web services (from conception to realization, works in correlation with a mobile app)
- DEES: a 10.000 line C++ command line program. This program implement most **HMM** standard algorithms & inference algorithms.
- **SeDiL**: a Java application using Swing UI. The goal is to provide biologist an easy way to use an algorithm that generate Similarity Matrices for strings but also for Tree structures. Most graphics was done by me, including the drawing of trees. I didn't used a library for that purpose.
- For YPassword ; a Dashboard Widget, a web interface, a command line tool.
- Some websites: yannesposito.com, ypassword.esposito.com
- Written a thesis in Machine Learning and published in major international conferences: [ICALP2003], [COLT2004] & [COLT2006].
- A full javascript web application which display Electric consumption in real time.
- **krambook** (the engine I use to create this document. I exported it in HTML, PDF (using \LaTeX) and SVG.
- some Mac OS X screensaver, a MetaPost plugin to draw Automata, an RFC-like document to help my student to make a TOR like network, etc...

7.1 YPassword 2008 →

Mainly an iOS application:

- YPassword, <http://ypassword.espozito.com>

I've done fully the website from scratch. Also there are some javascript implementation of YPassword tehcnic:

- a Mac OS X dashboard widget,
- a Cappuccino Web application,
- a jQuery Web application,
- a command line tool,
- an Applescript helper

7.2 Rubyzome 2009 →

Ruby API oriented framework. Done with Luc Juggery. This framework is REST oriented and output can be either JSON (preferred), but also XML or HTML.

7.3 Anonymous Network Project 02/2006 → 06/2006

Made a protocol similar to TOR for student.

7.4 Other projects

- Web Application used for private team usage at AirFrance 2008 →
This application is just done *for teh lulz*. Not related to the Airfrance work.
But still pleasant.
Javascript(Prototype.js, Scriptaculous), CSS, PHP/MySQL, Google Talk
- metapost package to draw Automata 2003 → 2004
- Mac OS X Screensavers 2003 → 2004
Objective-C, Quartz Composer, Cocoa
